

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PREFACE.

Working under the direction of the Executive Council of the Fraternity since November, 1908, the Editor has prepared and now submits this edition as the Grand Catalogue of the Fraternity.

It will be noted in the alphabetical list that the names of members are designated by marks, which indicate as follows:

This mark (†) before the name of a brother indicates that the information concerning this member was received from his chapter after he had been written direct and no reply had been received from him, or our mail had been returned, marked "Wrong Address," etc.

This mark (*) before the name of a brother indicates that the information concerning this member was supplied from old catalogues and old records, as no response had been received from the member direct and no information could be furnished by his chapter.

Names before which no mark appears suggest that the information concerning these members was received direct from the members themselves.

It will be noted from this that fully one-half of the members of the Fraternity did not respond to the postal card sent to them when the work was first undertaken, and it is to be regretted that not more than one-half of the members who did receive the cards supplied the Editor with the information sought. It is only fair, therefore, to all concerned, that this explanation be made. Handicapped in this manner, over a year of diligent work has produced the catalogue submitted herewith. The Editor is willing that it shall represent the efforts spent, and he herewith submits it to the Fraternity with the hope that it may be satisfying and gratifying to the membership, to a small degree at least.

We are under obligations especially to the alumni associations, to the chapters, and to individual members who have made this work possible. When the work was first undertaken, each chapter was asked for a complete up-to-date list of its membership. These lists were used as mailing lists, and to each member a postal card was sent, soliciting information for the catalogue. Later, after no response could be secured from many of the brothers, lists of these were sent to the chapters and each chapter was requested to furnish the Editor with the best information possible concerning these brothers. In such cases where the chapter could not furnish such information, a diligent search was made through all of the old records of the Fraternity. Copy was then prepared for the printer and copies of this copy were sent for correction to all of the alumni associations and to others who had manifested a deep interest in the work. Corrections were made and the copy submitted to the publisher. This corrected copy was then read carefully by Brother Lincoln M. Coy, Treasurer of the Fraternity, and to him especially is the Editor under obligations for an unusual amount of assistance. And without the assistance of the Executive Council, freely and promptly given, this undertaking would have been impossible.

Our experience strongly urges us to recommend that the work of this department be assigned to the Secretary, with a sufficient allowance to pay clerk hire to keep up the records from year to year. If this is done, by the time the next catalogue is published, the many brothers whose addresses are unknown at present, should be located and the work of the next Editor should, thereby, be made easy.

ROY D. KEEHN.

Chicago, April 4th, 1910.

DEDICATED TO
The Memory of
EDWARD P. HAMMOND, JR.
the brother who instilled into the heart of me
the true meaning of
PHI KAPPA PSI
